

Agorà 2026

Civilisation is the Progress of Menalive

Call for Applications for International University Students

EucA (European University College Association), in collaboration with Fondazione Costruiamo il Futuro, invites you to discover Agora 2026, taking place from 11 to 13 November 2026, in the heart of Europe!

This experience offers a unique opportunity to engage directly with representatives of the European Union's institutions, explore the foundations and future of the European project, and exchange perspectives with young people from across Europe. By the end of the event, you will have expanded your understanding of European affairs, built meaningful international connections, and gained valuable insights into active citizenship, public policy, and European careers.

Art. 1 Event Description

Agorà 2026 is an international educational program that brings together 100 young participants from Italy and other European countries to meet representatives of European institutions and discuss the future of Europe. The event aims to foster a deeper understanding of the European Union's institutional architecture, encourage dialogue on the key challenges currently facing Europe, and bring young people closer to opportunities within European institutions. You will also have the opportunity to discover places that have played a significant role in the development of the European integration process.

Under the title "*Civilisation is the progress of Menalive*", the 2026 edition invites you to reflect on the concept of civilisation as a living reality shaped by human relationships, freedom, and responsibility. From this perspective, Europe is not viewed as a finished achievement, but as an ongoing project that depends on the contribution and commitment of each generation. Through meetings, discussions, and exchanges with institutional representatives and fellow participants, you will be encouraged to reflect on your role as a European citizen and engage with some of the most relevant questions shaping Europe's future.

The results? New connections, a deeper understanding of European institutions, and the inspiration to play an active role in shaping the future of Europe.
